SUMMARY

I am a Full Stack Website Developer who has experience in HTML5, CSS3 and JavaScript programming languages and has experience using PHP and MySQL to build dynamic website applications. I can also use a CSS framework, namely Bootstrap and a PHP framework, namely Laravel. I am able to work in a team and follow the website development stages in a structured manner and I already understand SEO principles and how to increase website rankings in search engines. Currently I have 3 years experience as a Full Stack Website Developer. From my experience for 3 years, I have succeeded in creating dynamic websites for both individuals and companies or organizations. Apart from that, I also have experience using graphic design software, namely Corel Draw to make several graphic designs and Figma to create UI/UX.

EXPERIENCE

Web Developer   02/2023 - Present
kelas.com ↗

I am developing a corporate Laravel website on a class.work product as a team with familiarity using Visual Studio Code, Asana, Trello, and bitbucket.

Freelance Web Developer   01/2022 - 01/2023
De Creative Agency

At this De Creative I played a role as web development for 1 year by working on projects both individuals and companies. Starting from the portfolio, business profile, custome system (Realtime assessment, E-Booking). With the conditions according to the wishes given by the client and the limits that have been mutually agreed upon.

Graphic Designer   09/2020 - 09/2022
Am Store

My role at this Am Store startup is as a Graphic Designer with 2 years of experience in designing, producing designs such as Banners, Posters, Logos, Shirts/PDH/JAKETS.

Web Developer   01/2020 - 01/2022
Systemrisa Store

Systemrisa Store was my initial startup focusing on Full Stack Web Developers with experience creating panel websites for startups
